# SUBJECT INDEX

**α-particle emitters**, effect in mice at minumum toxic dose, **9**, 289
**Acetylcysteine**, treatment in paracetamol poisoning, **9**, 25
**N-acetylcysteine**, in patients with paracetamol overdose, **9**, 183
**Aflatoxin**, high serum concentrations in Nepal measured by Elisa, **9**, 143
**Amitriptyline**, toxicological findings after fatal self-poisoning, **9**, 257
**Anionic binding resins**, drug adsorbtion to, **9**, 95
**Anticholinesterase poisoning**, in Turkey, clinical, laboratory and radiologic evaluation of 269 cases, **9**, 273
**Anti-digoxin Tab fragments**, antidotes for proscillaridin and scillironside poisoning, **9**, 191
**Arsenic poisoning**, evaluation of the efficacy of dimercapto chelating agents, **9**, 215
—, and herbal medicine, **9**, 195
**Ascorbic acid**, inhibition of ß-glucoronidase in human urine, **9**, 165
**Asenobetaine**, human metabolism of following ingestion with fish, **9**, 41
**Astatine 211**, effect in mice at minimum toxic dose, **9**, 289
**Aspirin**, metabolism after therapeutic and toxic doses, **9**, 131
—, overdose and salicylate metabolism, **9**, 389
**Atropine**, use in acute organophosphorus poisoning, **9**, 99

**ß-blockers**, self-poisoning with bisoprolol, **9**, 255
**Bisoprolol**, self-poisoning with, **9**, 255
**Brain**, human, sulphotransferase and gluconyltransferase, **9**, 65
**British Toxicology Society**, Proceedings of the British Toxicology Society, Canterbury, 28–30 March, 1990, **9**, 323
—, Newcastle-upon-Tyne, 20–22 September 1989, **9**, 111

**Cadmium**, occupational exposure and testicular endocrine function, **9**, 91
**Calcium**, accumulation in muscle fibres after organophosphate poisoning, **9**, 245
**Cantharides poisonning**, serum concentrations of cantharidin in, **9**, 35
**Cantharidin**, post mortem serum concentration of in a fatal case of cantharide poisoning, **9**, 35
**Carbamazepine**, EEG appearances in acute toxicity, **9**, 313
**Central nervous system defects**, a cluster in Jamaica, **9**, 13
**Charcoal**, effect on plasma theophylline, **9**, 179
—, drug adsorbtion to, **9**, 95
**Computers**, computerized product information system in the toxicological index, **9**, 207
**Cyanide**, effect of storage in blood samples, **9**, 125
**Cystic kidney disease**, and phthalalate esters, **9**, 397

**Deliberate self-poisoning**, clinical value of drug analysis, **9**, 221
**Dimercapto chelating agents** in arsenic poisoning, **9**, 215
**Dimethoate**, suicides poisoning with, **9**, 49
**Drug analysis**, clinical value in deliberate self-poisoning, **9**, 221
**Drug absorbtion**, to charcoal, **9**, 95
—, to anionic resins, **9**, 95

**Endomyocardial fibrosis**, role of thorium, **9**, 79
**Elderly**, preservation of metronidasole elimination in, **9**, 155
**Elisa**, use in measuring aflatoxin serum concentrations, **9**, 143
**Enzymatic control**, toxicological implications, **9**, 17
**Extracorporeal regional complexing haemodialysis**, in acute inorganic mercury intoxication, **9**, 137

**$^{59}$Fe transferrin**, in rat liver cell membranes, **9**, 17
**Fish**, metabolism of arsenobetaine ingested with, **9**, 41
**Flumazenil**, use in zolpidem intoxication, **9**, 105

**Gentamicin nephrotoxicity**, vitamin E and selinium in, **9**, 281
**Glucagon infusion**, importance in oxprenolol poisoning, **9**, 101
**Gluconyltransferase**, human brain, **9**, 65
**ß-glucuronidase**, inhibition in human urine by ascorbic acid, **9**, 165
**Glycine**, depletion of plasma levels and effect of glycine by mouth on salicylate metabolism during aspirin dose, **9**, 389
**Glutathione-S-transferase**, in patients with paracetamol overdosage, **9**, 183
**Glycopyrrolate**, use in acute organophosphorus poisoning, **9**, 99

**Haemodialysis**, in acute inorganic mercury intoxication, **9**, 137
**Hepatoxicity**, in patients with paracetamol overdose, **9**, 183
**Herbal medicine**, as a cause of combined lead and arsenic poisoning, **9**, 195
**Hexachlorobenzene**, effect on the pathogenesis of systemic pneumonic and hepatic virus infections in the mouse, **9**, 403
**S-hydroxymethylfurfural**, and metabolism of human blood cells, **9**, 211

**Intermediate syndrome**, in organophosphate poisoning, **9**, 187

**Kidney function**, in female workers exposed to perchlorethylene, **9**, 13

**Lead**, neutrophil function in exposed workers, **9**, 231
**Lead exposure**, and testicular endocrine function, **9**, 371
—, effect on serum 1,25 dihydroxyvitamin D levels, **9**, 29

**Lead poisoning**, and herbal medicine, **9**, 195
**Lornoxicam**, interaction with warfarin in healthy volunteers, **9**, 413

**Mercury intoxication**, extracorporeal regional complexing haemodialysis treatment in, **9**, 137
**Methidathion**, acute poisoning with, **9**, 415
**Methomyl**, poisoning, management, **9**, 251
**Methyl ethyl ketone peroxide**, peripheral zonal hepatic necrosis, **9**, 197
**Methyl parathion**, cytogenetics in peripheral lymphocytes, **9**, 385
**Metronidasole**, elimination is preserved in the elderly, **9**, 155
**Morphine-6-glucoronide**, in mediating opioid effect of morphine in acute renal failure, **9**, 317

**Narcotic overdose**, mimicked by zolpidem intoxication, **9**, 105
**National Poisons Information Centre**, in a developing Asian country, **9**, 161
**National Poisons Information Service**, and paracetamol poisoning in pregnancy, **9**, 147
**Nifedipine**, pharmacokineties and toxic effects in massive overdose, **9**, 309

**Occupational exposure**, to cadmium, effect on testicular endocrine function, **9**, 91
—, to perchloroethylene, effect on kidney function, **9**, 377
—, to lead, effect on neutrophil function, **9**, 231
—, effect on serum 1,25 dihydroxyvitamin D levels, **9**, 29
—, effect on testicular endocrine function, **9**, 371
**Organophosphate poisoning**, calcium accumulation in muscle fibres, **9**, 245
—, and development of intermediate syndrome, **9**, 187
—, with dimethoate, **9**, 49
—, use of glycopyrrolate and citropine, **9**, 99
**Oxyprenolol poisoning**, importance of glucagon infusion, **9**, 101

**Paracetamol poisoning**, in pregnancy, **9**, 147
—, safety of late acetyl cysteine treatment, **9**, 25
**Paracetamol overdosage**, intravenous N-acetyl cysteine hepatotoxicity and plasma glutathione-S-transferase in, **9**, 183
**Paraquat poisoning**, pre-embarkation prognostication for, **9**, 381
**Paraquat toxicokinetics**, in humans, **9**, 5
**PCB reduction**, and clinical improvement by detoxification, **9**, 235
**Perchlorethylene**, kidney function in female workers exposed to, **9**, 377
**Phthalate esters**, cystic kidney disease in animals and possible effects on human health, **9**, 397
**Podophyllin**, accidental poisoning with, **9**, 55
**Polyvinyl alcohol**, vaginal adsorption in rats, **9**, 71
**Pregnancy**, paracetamol poisoning in, **9**, 147
**Proscillaridin poisoning**, and anti-digoxin Fab fragments, **9**, 191
**$^{239}PuO_2$**, biological effects in rats with pre-existing pulmonary emphysema, **9**, 295
**$^{239}$Pu-transferrin**, in rat liver cell membranes, **9**, 17
**Pulmonary emphysema**, biological effects of inhaled $^{239}PuO_2$ in rats with pre-existing disease, **9**, 295

**Quinolophos**, cytogenecity in peripheral lymphocytes, **9**, 385

**Scilliroside poisoning**, and anti-digoxin Fab fragments, **9**, 191
**Self-poisoning**, with amitriptyline, **9**, 257
**Selinium**, in gentamicin nephrotoxicity, **9**, 281
**Sodium isononanoyl oxybenzene sulphonate**, bronchial provocation testing, **9**, 83
**Sorbitol**, effect on plasma theophylline, **9**, 179
**Sulphotransferase**, human brain, **9**, 65

**Testicular endocrine function**, and occupational cadmium exposure, **9**, 91
—, and occupational lead exposure, **9**, 371
**Thallium poisoning**, thrombocytopenia associated with, **9**, 47
**Theophylline**, effects of charcoal and sorbitol on plasma concentration, **9**, 179
**Thorium**, in endomyocardial fibrosis, **9**, 79
**Thrombocytopenia**, associated with thallium poisoning, **9**, 47
**Toxic doses**, aspirin, **9**, 131
**Toxicological**, implication of enzymatic control of reactive metabolites, **9**, 171
**Transferrin**, in rat liver cell membranes, **9**, 17

**Urine**, inhibition of ß-glucoronidase by ascorbic acid, **9**, 165

**Vaginal adsorbtion**, polyvinyl alcohol in rats, **9**, 71
**Virus infection**, effect of hexachlorobenzene on in the mouse, **9**, 403
**1,25 dihydroxyvitamin D levels**, in occupational lead exposure, **9**, 29
**Vitamin E**, in gentamicin nephrotoxicity, **9**, 281

**Warfarin**, interaction with Lornoxicam in healthy volunteers, **9**, 413

**Zolpidem**, intoxication mimicking narcotic overdose, **9**, 105
**Zonal hepatic necrosis**, and methylethyl ketone peroxide, **9**, 197
